Perimeter Guard Rail/Safety Posts

EDC safety posts are perfect for quick and safe guard rail construction. Ideal for use on perimeters, stairwells, elevator shafts and other openings. Easy to install, use and break down.

3 Eucker St., Ridgefield Park, NJ 07660
201.641.2880 fax.201.641.0847

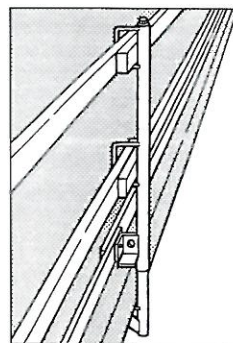

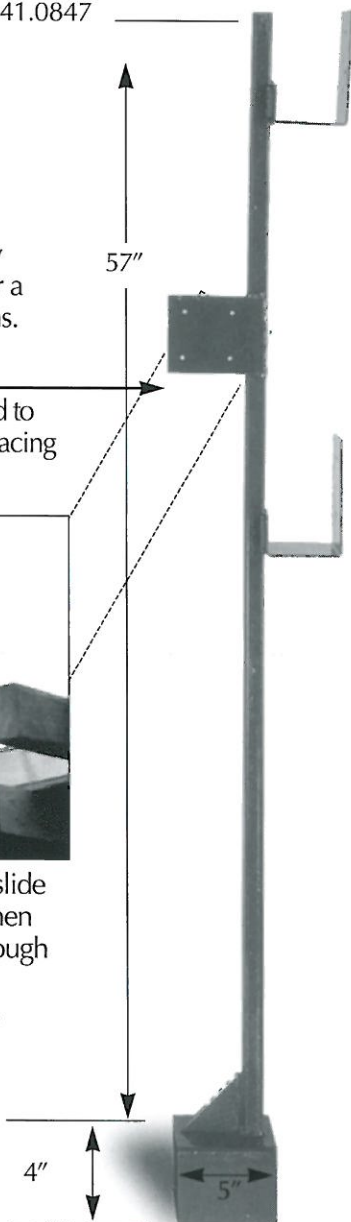

EDC Guard Rail Posts provide efficient safety and are conformed for a number of applications.

Nailing plate is designed to accommodate wood bracing to the deck lumber.

Base box designed to slide over deck lumber; is then secured by nailing through nailer holes. Sizes for 3"x4", 4"x4", and 4"x6" lumber.

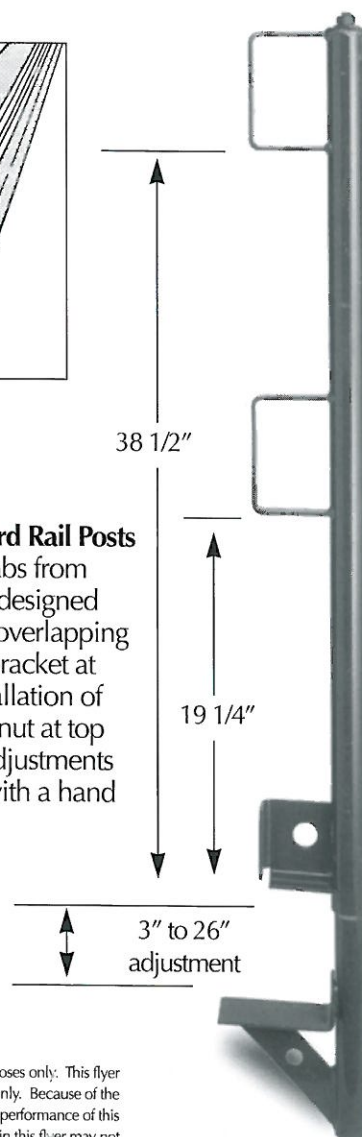

Erection, use, maintenance, and disassembly must conform to current Federal, State and Local regulations. Copies of Safety Guidelines for these and other products are available from EDC, without charge.

SAFWAY Adjustable Guard Rail Posts adjust automatically to slabs from 3" to 26" thick. They are designed to accommodate two (2) overlapping 2x4s and have a special bracket at slab level to facilitate installation of toeboards. The adjusting nut at top of post allows for quick adjustments (no leaning or bending) with a hand or power wrench.

42" high top rail
24" middle rail

Weight: 20 lbs.
